

Duckling Sample Document

This fixture is used for documentation screenshots. It includes headings, body text, an embedded logo, a chart image, and a structured table so export previews and extraction tabs render realistic content.

Product Overview

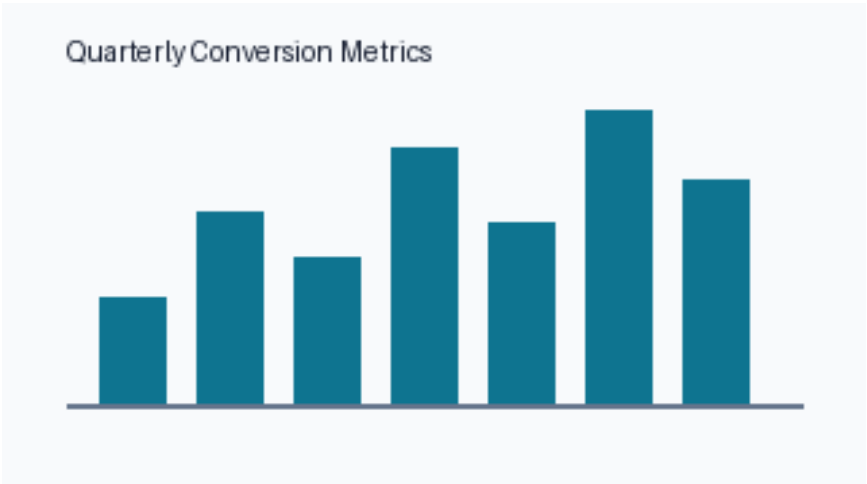

Duckling converts PDFs and office documents into Markdown, HTML, JSON, and other formats while preserving tables, images, and layout structure.

Regional Processing Summary

Region	Documents	Avg. Pages	Success Rate
North America	1,245	18.2	98.4%
Europe	986	16.7	97.9%
Asia Pacific	1,102	21.3	98.1%
Latin America	437	14.8	96.8%

Performance Chart

Use this document when regenerating screenshots so image galleries, table downloads, and preview panes show meaningful extracted content in every locale.
